Q

Q (kiū), the seventeenth letter of the English and the sixteenth of the Roman alphabet, was in the latter an adoption of the Ϙ (κόππα, *koppa*) of some of the early Greek alphabets. The Phœnician letter from which this was derived had the forms Ϙ, φ, ϕ, and was used as the sign for the more guttural of the two *k*-sounds which exist in the Semitic tongues. In OE. orthography the ordinary symbol for the Com.Teut. initial combination *kw-* was *cw-* (in early use also *cu-*). By the end of the 13th c. *cw-* was entirely discontinued, and *qu-* (or its variants *qv-*, *qw-*) was the established spelling for all cases of the sound (kw), whether of English, French, or Latin origin. In ordinary mod. English words *q* is employed only in the combination *qu*, whether this is initial as in *quality*, etc., medial as in *equal*, etc., or representing a final (k), as in *cheque*, *grotesque*, etc.

I. Used to denote serial order, as 'Q Battery', 'Section Q', etc., or as a symbol of some thing or person, a point in a diagram, etc.

R

R (ār), the eighteenth letter of the modern and seventeenth of the ancient Roman alphabet, is derived through early Greek Ρ, P from the Phoenician ᑫ. In general the character denotes an open voiced consonant, in the formation of which the point of the tongue approaches the palate a little way behind the teeth; in many languages this is accompanied by a 'trill' or vibration of the tongue. This trill is almost absent in the *r* of modern standard English, which moreover retains its consonantal value only when it precedes a vowel; in other positions it has been vocalized to an ə sound, here denoted by (ı), and even this is entirely lost after certain vowels. By southern speakers *r* is frequently introduced in hiatus, as in *the idea(r) of*, *Asia(r) and Africa*.

‖**Re** (rē), *prep.* 1707. [abl. of L. *res* thing, affair.] In the matter of, with reference to.

The L. phr. *in re* is similarly used.

Re-, *prefix*, of L. origin, with the general sense of 'back', or 'again', occurring in a large number of words adopted from L., or of later Rom. origin, and on the model of these freely employed in English.

In earlier L. *re-* was used bef. consonants, and *red-* bef. vowels or *h-*, as in *redire*, *redhibere* (rarely in other cases, as in *reddere*). In later L. *re-* was employed bef. vowels as well as consonants, as in *reagere*, etc. **2.** The original sense of *re-* in Latin is that of 'back' or 'backwards', but in use the prefix acquires various shades of meaning. **a.** 'Back from a point reached', 'back to or towards the starting-point', as in *recedere*, *revocare*, etc. **b.** 'Back to the original place or position', as in *reponere*, *restituere*, etc.; freq. implying 'back to one's hands or possession', as in *recipere*, *resumere*, etc. **c.** 'Again', 'anew', as in *recreare*, *regenerare*, etc. **d.** In some cases *re-* has the same force as Eng. *un-*, as in *recingere* to ungird, *recludere* to unclose, *revelare* to unveil. In *reprobare* to disapprove of, it expresses direct negation. **e.** 'Back in a place', i.e. 'from going forward', with verbs of keeping or holding, as *retinere*, etc.; or 'without going on or forward', with verbs of rest, as *remanere*, *residere*, etc. **3.** Words formed with the prefix *re-* first make their appearance in English about the year 1200. Towards the end of the 16th c. *re-* begins to rank as an ordinary English prefix, chiefly employed with words of Latin origin, but also freely prefixed to native verbs. Since 1600 the use of the prefix has been very extensive. **4.** In English formations, whether on native or Latin bases, *re-* is almost exclusively employed in the sense of 'again'. In all words of this type the prefix is pronounced with a clear *e* (rī), and frequently with a certain degree of stress, whereas in words of L. or Rom. origin the vowel is usu. obscured or shortened, as in *repair* (rǐpēᵊ·ɹ), *reparation* (repărēⁱ·ʃən). In this way double forms arise, with difference of meaning, which in writing are usually distinguished by hyphening the prefix, as *recoil* and *re-coil*, *recover* and *re-cover*, etc. The hyphen is also freq. employed, when stress is laid on the idea of repetition, esp. when the simple word precedes the compound, as in *make and re-make*, *state and re-state*; also, when the main element begins with a vowel; before *e* it is usual to insert the hyphen, as *re-enter*, etc. **b.** *Re-* is occas. doubled or even trebled (usu. with hyphens inserted) to express further repetition, but not in serious writing. **5** The number of forms resulting from the use of this prefix in English during the 19th c. is infinite, but they nearly all belong to one or other of three classes. **a.** Prefixed to ordinary verbs of action (chiefly trans.) and to derivatives from these, sometimes denoting that the action itself is performed a second time, and sometimes that its result is to reverse a previous action or process, or to restore a previous state of things, as *reaccept*, *reaccuse*, *reacknowledge*, *reacquire*, *readapt*, *readjourn*, *readminister*, *readopt*, *readorn*, *readvance*, *readvise*, *reaffirm*, *reafforest*, *re-allot*, *re-apply*, *re-appoint*, *re-approach*, *re-arrange*, *rebind*, *re-celebrate*, *re-clasp*, *recoin*, *recombine*, *recommission*, *reconduct*, *reconfirm*, *reconquer*, *reconsecrate*, *reconstitute*, *recross*, *recrystallize*, *redeliver*, *redemand*, *redescend*, *redirect*, *rediscover*, *redispose*, *redistil*, *re-edit*, *re-elect*, *re-embark*, *re-embody*, *re-emerge*, *re-enact*, *re-endow*, *re-engage*, *re-engrave*, *re-enjoy*, *re-enlist*, *re-erect*, *reface*, *refashion*, *refasten*, *refind*, *refix*, *refloat*, *reflower*, *refold*, *reforge*, *refortify*, *reframe*, *refurbish*, *refurnish*, *regild*, *regrow*, *reheat*, *reillume*, *reillumine*, *reimpose*, *reimpress*, *reimprison*, *reincur*, *reinduce*, *reinfect*, *reinhabit*, *reinspire*, *reinstruct*, *reinterpret*, *reinterrogate*, *reintroduce*, *reinvigorate*, *reissue*, *rejudge*, *re-lay*, *re-let*, *relocate* (U.S.), *remake*, *re-mark*, *remelt*, *remix*, *remodel*, *remould*, *rename*, *renumber*, †*renumerate*, *reoccupy*, *reopen*, *reordain*, *reorder*, *reorganize*, *repack*, *repaint*, *reperuse*, *replate*, *repleat*, *repolish*, *repopulate*, *re-present*, *repurchase*, *re-rate*, *re-resolve*, *reseat*, *resell*, *reshape*, *reship*, *re-sign*, *re-sound*, *resow*, *respell*, *restock*, *restrengthen*, *resubject*, *resummon*, *resupply*, *resurvey*, *retell*, *re-trace*, *retransform*, *retranslate*, *retransmit*, *retype*, *revaccinate*, *revalue*, *revictual*, *revisit*, *rewake*, *rewaken*, *rewarm*, *reword*, *rewrite*, etc. vbs; *reaccess*, *readvancement*, *re-application*, *reconquest*, *redelivery*, *re-election*, *re-enactment*, *refoundation*, *regenesis*, *re-hire*, *reissue*, *replantation*, *representation*, *re-presentment*, *repurchase*, *resale*, *resolution*, *resurvey*, *retransmission*, *retrial*, *revaluation*, etc. sbs.; *re-eligible*, *reincarnate*, *remade*, *re-orient*, *re-soluble*, etc. adjs. **b.** Prefixed to vbs. and sbs. which denote 'making (of a certain kind or quality)', 'turning or converting into —', esp. those formed on adjs. by means of the suffix *-ize*, as *rebarbarize* vb., etc. **c.** Prefixed to vbs. and sbs. which denote fitting, furnishing, supplying, or treating with something, as *re-type*, etc. (Freq. in recent technical use.)
